

Let Satellite Events Enterprises, Inc.(SEE) Help You Increase your Marketing Efforts, and Communications and also provide a Mobile Vehicle for Donations! Looking for Ways to Elevate Your Brand above the Media Clutter.

Now in addition to our special event production and integrated media services, we are offering telecommunication services including texting for updates to your present and future customers, text to donate to your favorite charity, and others. We can offer you cell blogs where your customers can text in to get a phone number to call to hear your latest news, events or whatever, or they can leave comments like an audio blog.

We can also offer image recognition where fans can take pictures of your ads and get a link back to your website or info on the nearest store or whatever you want.

Looking for an easy way to get more donors to support your non-profit organization? Add a mobile phone giving service to your fundraising strategy and make giving as easy as sending a text message.

Your donors simply text a keyword to a short code and their \$5 or \$10 donation is added to their cell phone bill and then forwarded on to your organization.

Whatever your mobile marketing needs, SEE can help take you there.

Satellite Events can help you design your mobile campaign with media events to maximize its success. We know the mobile landscape and can help you shape the most effective mobile marketing and or mobile donation campaign. We can work with you to create a media strategy, design and implement a mobile service, and help your organization connect the dots to generate maximum media and fundraising impact.

With years of experience in producing global media events, let us help make your next event, marketing project, or fundraising project your most profitable ever!
